## 109th Annual Report

---

The Committee beg to submit their Annual Report and a Statement of Accounts.

The New Nurses' Home was opened by the then Lord Mayor, Miss Margaret Beavan, in June last, and it has proved a great boon to our Nursing Staff. As forecasted in our last Annual Report, a number of rooms which were formerly used as Nurses' bedrooms in the main building of the Infirmary have been converted into Wards for middle class patients. On the Eye side there are now five of such Wards and on the Ear and Throat side five. These paying Wards are meeting a want which is so prevalent in many of our voluntary Hospitals to-day, namely, the provision of accommodation for patients anxious to pay something for the services of Nursing, Medical and Surgical treatment, but quite unable to pay for the expense of a private Nursing Home and the increased Surgical and Medical fees involved in their treatment in such a Home.

The Committee have been careful to arrange that the fees charged for accommodation and Nursing and Surgical attendance in these paying Wards is kept as low as possible consistent with the increased cost to the Infirmary of the upkeep of such Wards.

The Committee has for sometime had under serious consideration the extension of the function of the Infirmary to diseases of the Throat, and has decided in view of modern developments of Medical Science in this special branch that Laryngological cases shall in future be treated at the Infirmary.

After more than 100 years of excellent work done at the Infirmary in Eye and Ear cases the Committee are satisfied that this extension to Throat cases will prove of great benefit to the Community.

During the year a new department has been established. The Committee refer to an Oto-Neurological Clinic which deals with those diseases in which the Eyes, Nose, Ears and Throat and parts of the nervous system (more particularly the brain) are closely associated. The collaboration of Neurologist, Radiologist, Pathologist and Specialist in the Eyes, Ears, Nose and Throat will, it is hoped, not only bring out new facts of importance and increase the precise knowledge of the members of the Staff and their Students, but will also prove of immediate service to the patient and the Doctor who sends such patient to the Clinic. This Clinic meets at the Infirmary on Friday afternoons at 1.45,

The Committee have to record, with regret, the death during the year of their Hon. Physician, Dr. John Owen, and the resignation of Dr. Sanderson, one of the Honorary Aural Surgeons. Our Honorary Assistant Surgeon, Dr. F. B. Chavasse, has, during the year, resigned his position as Hon. Pathologist so as to give more time to his other work at the Infirmary, and Dr. Hugh Smith has been elected to this position in place of Dr. Chavasse.

Our Honorary Medical Staff increases in number almost every year, and this is inevitable if we are to keep abreast of the times. This year we have added to our list an Honorary Consulting General Physician, and in addition in the new Oto-Neurological Clinic an Hon. Registrar, Hon. Surgeons and Physicians and an Honorary Radiologist.

We said farewell during the year to Miss Bramwell, who was our Matron for 50 years, and elected in her place Miss Simon, who was associated with the Infirmary for some years as Sister. The Committee, however, very much regret to say that soon after Miss Simon's arrival at the Infirmary her health completely broke down and she was compelled to resign.

During the past years, the following cases have been prescribed for—

OUT-PATIENTS' DEPARTMENT—New Eye Cases				...	...	7,635
New Ear Cases				...	...	4,872
TOTAL ATTENDANCES				...	...	32,077
IN-PATIENTS' DEPARTMENT—In-patients				...	...	1,364
Important Operations				...	...	948
Minor Operations on Out-patients				...	...	670

## MEDICAL AND SURGICAL REPORT

The routine work of the hospital in both departments, Ophthalmic and Aural, has continued uneventfully throughout the year, but we have to regret the resignation of a valued colleague, Mr. Sanderson.

The bacteriological department under Dr. Cronin Lowe has been fully occupied with much important work.

A new department connected with the neuropathology of the eye and ear has been started under the direction of Mr. Hugh E. Jones. This department will continue to increase in value.

Perhaps the outstanding events of the year, so far as treatment is concerned, has been the opening of accommodation for the reception of private patients at reduced fees, made possible by the removal of the nursing staff to the New Nurses' Home, and the extension of the functions of the Infirmary to Laryngological cases.

EDGAR STEVENSON.

## BACTERIOLOGICAL REPORT

The work in the Bacteriological Clinic, as regards number of examinations and treatment, has continued during the past year at a somewhat increased figure as regards certain tests, etc., but has decreased as regards others, but this may be accounted for by the fact that the figures are calculated on only 10½ months working, namely from April, 1928, up to date, instead of the usual 12 months as previously.

The undermentioned notes detail the work carried out under three headings :—diagnostic tests, bacterial examinations, and treatment administered.
